**Re: Supplement to Seventh Further Modified Request for Further  
Modification of Deadlines of Amarillo License, L.P. for Station  
KNKA574 and High Plains Wireless, L.P. for Station KNLF919 on  
Implementation of Wireless Enhanced 911 Phase II Automatic  
Location Identification (ALI) System  
CC Docket No. 94-102**

Dear Ms. Dortch:

On behalf of Amarillo License, L.P. ("Amarillo") and High Plains Wireless, L.P. ("High Plains"), we hereby submit this supplement to their seventh further modified request for a modification of the deadlines for implementation of Wireless Enhanced 911 Phase II Automatic Location Identification ("ALI") Systems for Stations KNKA574 and KNLF919. On December 23, 2004, Amarillo and High Plains asked the Commission for an extension of time until June 30, 2005 to provide Phase II 911 enhanced service to the entire PSAP area within the companies' respective service areas. The purpose of this supplement is to provide to the Commission a copy of an e-mail from the Potter-Randall County Emergency Communications District (the "Local PSAP") consenting to Amarillo's and High Plains's extension request.

Section 20.18(j)(5) of the Commission's rules, 47 C.F.R. § 20.18(j)(5), permits carriers and PSAPs to modify deadlines by mutual consent. Because the Local PSAP has consented to the requested date, this request by Amarillo and High Plains is fully justified. Therefore, Amarillo and High Plains respectfully request that the Commission extend their implementation deadline until June 30, 2005 to provide Phase II 911 enhanced service to the entire PSAP area within their respective wireless service areas. Please address any inquiries regarding this matter to the undersigned.

Very truly yours,

Eliot J. Greenwald
